**Re: Verde Ridge (Formerly Stoneridge)
Yavapai County
Water Adequacy Report # 22-400904 [REVISED]**

Dear Mr. Tanney:

Pursuant to A.R.S. §45-108, the Department of Water Resources has reviewed the available information pertaining to the water supply for the above captioned subdivision located in Section 31, T14N, R5E, Yavapai County, Arizona.

Water for domestic use will be provided to each of the 54 lots in the subdivision by Camp Verde Water System, Inc. from wells within its franchised area.

Adequacy of the water supply was reviewed by the Department with regard to quality, quantity and dependability. The subdivision is located in the Town of Camp Verde, Arizona. Camp Verde Water System supply wells are located about 6 miles northwest of the subdivision site and produce from a limestone aquifer. Depth to water in the area is about 374 feet below land surface. Water quality is suitable for domestic use. Current information indicates the water supply will be capable of meeting the demands of the subdivision for 100 years, therefore the Department of Water Resources finds the water supply to be adequate to meet the subdivision's projected needs. Any change to the subdivision or its water supply may invalidate this decision.

This letter, which constitutes the Department's report on the subdivision's water supply, is being forwarded to your office as required by A.R.S. §45-108. This law requires the developer to hold the recordation of the subdivision's plat until receipt of the Department's report on the subdivision's water supply. By copy of this report, the Yavapai County Recorder is being officially notified of the developer's compliance with the law.
